

ProGen Molecular Biology Lab

Acme ProGen Biotech (India) Private Limited

ICMR Registration ID : PGMBLAPSTN

SID No. : 038785 **Ph: 70109551718**

Name : MR. ADITHYAN ARUN KUMAR

Age /Sex : 21 Years / Male

Patient ID :0039074

Sample Collected Date/Time :20 Jan 22/08:00

Sample Received Date/Time :20 Jan 22/23:27

Reported Date/Time :21 Jan 22/03:55

Page # : 1/1

Passport No : Z5640392

Sample Collected and Sent

ICMR NO :648294734**SRF ID:3358402091202****MOLECULAR BIOLOGY****COVID 19 RT PCR**

SPECIMEN : Nasopharyngeal / Oropharyngeal Swab

Comments : DOB : 30/01/2000 Nationality : Indian

SARS-CoV-2 : NEGATIVE

Interpretation :
 Positive: RNA specific SARS-CoV2 detected.
 Negative: RNA specific SARS-CoV2 not Detected.
 Real Time PCR -ICMR Approved

RT-PCR numerical Ct value is not recommended for determining infectiousness of COVID-19 patients and deciding patient management protocols (ICMR Guidelines Dated: 05/08/2020).

Note : 1.SARS-CoV-2 qualitative diagnostic test was performed on a commercial ICMR/US FDA EUA approved/CE marking/IVD certified Real Time RT-PCR kit.
 2.Negative results do not preclude SARS-CoV-2 and should not be used as the sole basis for patient management decisions. Kindly repeat the test after 48-72hrs, if clinically suspected.
 3.Negative results doesnot rule out the possibility of SARS-Cov-2 infection.
 4.False negative results may be caused by various factors, including timing of sampling, improper sample collections, improper transport, treatment, PCR inhibitors, mutations on target analyte, insufficient RNA specific to SARS-Cov-2 etc. can influence the test result. Correlate the results with clinical findings.
 5.Viral nucleic acid may persist in-vivo, independent of virus viability. Detection of the analyte target does not indicate that the viruses are infectious or are the causative agents of symptoms.
 6.As per ICMR guidelines, the contact and test details of all patients undergoing COVID-19 testing need to be uploaded on the ICMR reporting portal and the same will be accessed by stakeholders including JDHS, DDHS, Local Corporation Health Authorities and TN-DPH for timely initiation of contact tracing and appropriate control measures.
 7.There is no need to panic about the positive and asymptomatic nature of COVID-19. Be calm and confident. More than 95% have recovered from COVID-19. Stay isolated at home. Government officials will get in touch with you soon to assess your medical condition by triaging.
